Do you want to know how to manifest your heart's desire, with techniques that really work? Whether it is financial abundance you desire, or relationships that bring you joy; how to have peace of mind, or the courage and direction to pursue your dharma, **Follow Your Dreams** will guide you with scientifically proven methods that anyone can do.

If you are like most people in this day of information overload; discerning which books, teachers and techniques will work for you can be overwhelming. Where do I start? What is a foolproof method that will bring me the desired results in the least amount of time? I can't afford to sit on a mountaintop for a year. Does this sound familiar?

**Good questions, and if you really want to know the answers... this workshop is for you!**

**Follow Your Dreams** reveals a simple, step-by-step method for creating the life you've only dreamed of before now. Designed for people who ask "what's the bottom line?" and led by a man who's found the bottom line, **Gene Wall Cole**.

Gene has learned from, traveled with and played for some of the most diverse, compelling and thought-provoking people of our time; from the United Nations and the Dalai Lama, to Stevie Wonder, Robin Williams and the Saudi Arabian Royal Family.

*"Talking to oneself is a habit we all have. Most of us are totally unaware that our inner conversations are the causes of the circumstances of our life. To attempt to change the world before we change our own inner talking is the struggle against the very nature of things. Our present mental conversations do not recede into the past like man believes, but advance into the future to confront us as wasted or invested words."*

-Neville

### What?!

**Are you nuts? You're saying my thoughts are responsible for the life I'm now living? That I can deliberately create the life I've always wanted by changing my thoughts?**

**...Yes!!!**

Gene's joyful exuberance and insightful honesty always convey his greatest message: "My job is just to suit up, show up, do the footwork, and leave the results up to God."

This faithful attitude has enabled Gene to take the best information on personal development, and simplify it for those people looking for the bottom line.
